- **Y. T. Gaidar Scholarship**
- **A.I. Solzhenityna Scholarship**
- **D.S. Likhacheva Scholarship**
- **A.A. Sobchaka Scholarship**
- **V.A. Tumanova Scholarship**

Scholarships for students studying on a paid (contractual) basis

Scholarships for students studying in prioritized areas of study – modernization and technological development of the Russian economy.

According to governmental decree from January 6th, 205 N7-p, there are 3125 students studying in the following prioritized areas:

Specialists:

- **Informational security in automated systems;**
- **Design, manufacture and operation of rockets and space-rocket equipment;**
- **Design of aircraft and rocket engines;**
- **Ground-based transport and technology;**
- **Special purpose transport;**
- **Radio-electronic systems and equipment;**
- **Aircraft control systems.**

Master's students:

- **Electrical engineering**
- **Power Engineering**
- **Missile systems and cosmonautics**
- **Land-based transport systems**
- **Operation of transport technology machines and systems**
- **Instrument engineering**
- **Infocommunications technology and communication systems;**
- **Computer science, computer engineering**
- **Software engineering**
- **Chemical engineering**
- **Energy and Resource conservation processes in chemical engineering, petroleum engineering, and biotechnology**
- **Electronics, nanoelectronics**
- **Thermal engineering, thermal power engineering**

Bachelor's:

- **Information security**
- **Power and electrical engineering**
- **Materials science and engineering**
- **Land-based transport systems**
- **Operation of land-based transport machines and systems**
- **Electronics and nano-electronics**
- **Infocommunications technology and communication systems**
- **Design and technology of electronic devices**
- **Automation of technological process and manufacturing**
- **Information science and computer engineering**

Bachelor's:

- **Information systems and technology**
- **Software engineering**
- **Energy and Resource conservation processes in chemical engineering, petroleum engineering, and biotechnology**
- **Thermal engineering, thermal power engineering**
- **Power engineering**
- **Missile systems and cosmonautics**
- **Instrument engineering**
- **Mechatronics, robotics**
- **Radio**
- **Chemical engineering**
- **Applied mathematics**

Scholarships for students studying on a paid (contractual) basis

Criteria for awarding scholarships for students studying in prioritized areas of modernization and technical development of the Russian economy:

- 1. Study on “good” and “excellent” level, with mostly “excellent” marks ;**
- 2. For:**
 - Having participated in olympiads, competitions, contests aimed at identifying educational achievements, OR
 - Having received awards or prizes for scientific research, OR
 - Having received patents, grants, or certifications, OR
 - Having published works, OR
 - Having presented papers/reports in conferences or seminars.

Presidential Scholarship– 8 050 rub/month

Governmental Scholarship – 5 750 rub/month
